

## Cool Cars

He worked on cars and did so well,  
I always thought he should buy and sell.  
His 66 is oh so sweet  
He built it himself, it's really neat!  
He once did a burn out, but he got caught.  
The law pulled him over  
Who would have thought?  
We made great new friends, it's a cool thing.  
He should build another  
Who knows what it would bring.
